CHICAGO GRAIN MARKETS.

Chicago, Nov. 5.—The volume of wheat purchases today was less than expected and the subcommittee stepped in to fill the gap. A period of dullness looked for. There was a return of heaviness and selling pressure and a break of a cent or more from the best point of the morning.

Liverpool was strong enough, to help the early buying session. Flour was bullish from Minneapolis. Renewal of liberal sales, shipments for the day 75,000 barrels and the big sales reporting conditions in flour, trade excellent. The new wheat used the wheat trade here in the last hour came from the southwest. Kansas City reported each price from one cent to three cents lower and prospects of increase 75,000 bushels for the week. St. Louis near the close claimed cash wheat several cents lower and annual harvestable except at sharp conceptions. The Modern Miller reported on the striking crop was bullish.

Corn prices showed the trend of values in futures and resulted in moderate selling. May closed at 60 1/2c, at best point and had a break in the last hour. The market was only a shade better than the low quotations. For three days past, cash corn has shown a 1/2c advance daily. Receipts are small, covering the period between the old and new supply. Weather conditions favor handling the new crop and receipts of new corn here were considerably increased today. Bearish feature came from aggressive selling after the first hour and the market showed a lower tendency.

May oats closed 1/2c lower at 41 1/2c. There was fairly good commission house buying of oats futures during the morning, but the market joined in the weakness with wheat and corn the last hour. As elevators are large this market is expected to keep in line with any decline in corn.

Beated shorts in November lead advanced the price during the morning. There was a sharp upturn of 4c in January pork, which made top prices of \$20.25. January lard and ribs showed gains of 10c at best figures. The market weakened before the close.

FRIDAY'S GRAIN MARKETS.

Winipeg, Nov. 5.—The markets showed a slight reaction strength in wheat and some export losses. Reported things more in line for trade, only again reporting "Nothing doing." Trading was very dull and the range never over 1/2c. Chicago December closed 1/2c higher, May 1/2c to 3/4c and July 1/2c. Minneapolis December was 1/2c to 3/4c and May 1/2c to 3/4c. Winnipeg November advanced 1/2c, December closed for same day at the same figure and May 1/2c higher. Cash wheat was up 1/2c to 3/4c, with moderate trade. Receipts were 621 cars, against 521 last year. November rate was 1/2c higher. Conditions of growing crops were generally favorable, feeling is quieter.

BRITAIN AND GERMANY BECOME MORE FRIENDLY

An Anglo-German Understanding Appears to be Under Consideration in High German Government Circles—May Stop the Naval Preparations Now in Progress.

Berlin, Nov. 6.—An Anglo-German understanding appears to be under consideration in high German government circles. The failure to reach such an understanding before the arrival of the fleet ordered by Great Britain.

After Sir Charles Hastings, former ambassador to Berlin, had been sent to Berlin to obtain a satisfactory reply to his suggestion made at a meeting between King Edward and Kaiser Wilhelm at Kronberg, K. I. heard it understood to have been the purpose of the emperor to send his representatives to Germany.

The value of an anonymous communication appearing in the Kreuz Zeitung discussing this subject and asks what can be done to restore among the British a feeling of security against German invasion and a sincere mischievous agitation concerning the naval preparations being made in the two countries.

Chancellor von Bethmann-Hollweg's prior "absolutely no victory" says the correspondence would seem to indicate that he was deepening upon this question and that it is now Germany's turn to make a counter proposal having considered the British suggestion unacceptable.

The writer adds that mutual assurances might be made in writing.

BIG MERGER CONTEMPLATED

American Telephone and Telegraph Co. to Control Western Union.

New York, Nov. 5.—Reports that the American Telephone and Telegraph Company had purchased the voting rights of the Gould stock company were spread today. That such a merger was under way or imminent was a story that has dropped up from time to time. The story was that the voting rights of the Goulds had been purchased upon a basis of five per cent dividend to be paid to the Gould family beginning in 1910.

When President Chas. of the Western Union, was asked to make a statement he said that he was not sure Mr. Chas. had to be excused from saying anything.

Other officials of the company said they were aware of the report but declined to discuss it.

The American Telephone and Telegraph Company controls all the Bell Telephone in the United States. It has been extraordinary prosperous in September last. The American Telephone and Telegraph company owned nearly \$16,000,000 worth of New York Telephone company stock owned by the Western Union.

MOORE COMMITTED FOR TRIAL.

Bogus money lender Must Stand trial on Serious Charge.

Winnipeg, Nov. 5.—Merrill A. Moore, once known as "Merrill A. Moore," was committed to trial for a serious charge in the police court at the end of the final session of his preliminary hearing on the charge of using the mails to defraud and deceive the public.

The law witnesses examined were pretty quick with the proceedings, some over within half an hour, a clear bill being given on the evidence.

Donald W. MacKay, a student, told of going to interview the prisoner in reference to a loan to be made to a fictitious client. Counsel for Moore secured the admission from the witness that he went there virtually as a detective. No trace of the name of the client could be found on the books and he was told by the prisoner that he would have the money back when the prisoner was in the stocks of debtors.

The prisoner, when asked if he had anything to say at the end of the taking of the evidence, answered in the negative.

HALLEY'S COMET PHENOMENA

Will Not Only Pass Across Sun But Earth Will Pass Through Tail.

Cambridge, Mass., Nov. 5.—"Halley's comet will not only pass across the face of the sun on May 18, but the earth will pass through the tail of the comet," said Dr. Charles F. Johnson of the Harvard University observatory today.

"The tail of the comet is made up of gases, acetylene, carbonic acid and several other gases. The gas will be ionized so that we shall see it very brightly. The gases were apparent to the people, the result would be very surprising."

In 1861, when another comet was passing there was a great display of shooting stars. We may have such a manifestation when Halley's comet passes."

BOILER BLEW UP ON N.O.S. BATTLESHIP

North Dakota on Her Endurance Run. Boiler Accident in Boiler Room. Four Men Seriously Injured—Twelve Others Badly Scalded—Made Contact Speed.

Portsmouth, N.H., Nov. 5.—As the new battleship North Dakota was completing her endurance run at a 24-knot gait off the New England coast today, a boiler room accident sent her carrying into the port to land four injured men.

While she was entering the fourth hour of her test a seven-inch tube in one of the lower rows of boilers blew out and filled the room with steam. It was reported from the navy yard that all the injured will probably recover, but it is feared one man will lose his sight.

In addition to the four men brought ashore twelve others suffered from scalding but their injuries are of a minor character and they were treated aboard ship.

Despite the accident the big battleship exceeded her contract requirements of 21 knots an hour, making 21.7 in the first two hours.

WAR AGAINST RELIGION.

Paris Archbishop Says That Such is Being Waged in France.

Paris, Nov. 6.—Mgr. Amette, archbishop of Paris, in a pastoral letter concerning the school question, denies that there is any intention of the archbishop to wage war against the public schools and says that it is merely devised to call attention to the fact that in many of the schools it is an open secret that a war against religion is being carried on. To pretend that one cannot denounce an irreligious school without appearing to attack the republic, the archbishop says amounts to the declaration that a system exists that necessarily is identified with impiety or atheism. The church did not admit that it had demanded that the Republic apply to the public schools of its own of principle, viz. respect of the "city of conscience."

Bellevue Lots Must Continue to Go at Sacrifice Prices

After being held up for more than a week without being allowed to advertise Bellevue Lots at Sacrifice Prices' the owner has failed in an attempt to withdraw them from the market, and the public will now get the benefit of the continued sale of these beautiful lots, unexcelled for location and public conveniences by any in the city, at prices fully 40 per cent. under the selling price of lots less desirable anywhere in the same sub-division.

For the Next Ten Days These Lots will go at \$165

for beautiful inside lots. \$10 down and \$2 per week until paid for. At the expiration of this time, \$25 down payment will be required, and \$10 per month thereafter.

Remember, these lots are close to the street car, with sewer, water, electric light and telephone accommodations already on the ground to be made use of.

Many have been the protests against our selling lots in this sub-division under the market price. Mr. H. Finch, of the Rogers Realty Company of Winnipeg, writes us, Nov. 1st, 1909, saying: "My brother is interested in lots 21-24 in block 29, and 8-13 in block 19, part of river lot 28, Bellevue, which were purchased by him at the rate of \$250 each." We are selling lots in this block for \$165 that are a little nicer than those referred to. Again, others inform us that lots in blocks 20, 31 and 29 Bellevue, cost them \$250 each. We are selling lots in these blocks which are a little higher and nicer, for \$165. \$10 down and \$2 per week; but this offer will not last long. Act quickly.

Office open till nine o'clock every night. Call for attendant to show and locate lots.

ENGLAND IS STIRRED OVER POEM BY WATSON

Port. Presents Startling Piece of Verse, the Original of Which is Said to Be Woman Standing as High as Royalty—A Portrait From Life.

London, Nov. 5.—In William Watson's new book of poems, just published by John Lane, is included one entitled "The Woman with the Serpent's Tongue," which has set London talking. No name is mentioned in the poem, but the name of a very well-known woman of every tongue.

The poetic presentation is of a kind quite unparalleled in modern literature, and in many circles Mr. Watson is being severely criticised as having far exceeded the bounds to which it is permissible to go.

To everybody conversant with the poems of every sort on behind the scenes in London life the picture is a speaking likeness of a woman who perhaps more than any other in England below royalty, has occupied the public attention from the days before her marriage, when she was the leader in a select coterie known as "The Souls," to those later times when her reported indiscretions have been seen precipitating a political crisis.

Whether Mr. Watson's portrait is true to life or is only an exaggerated caricature is a question badly debated. Everybody who knows the lady who is supposed to be the original acknowledges that she has a sharp tongue, and it is admitted that the poet may have experienced its keen sting. Another suggestion is that Mr. Watson may ascribe to this particular woman's influence the fact that he has not been the recipient of any of those titular honors which are customarily awarded by the British government to poets of more or less merit.

It is said that the publisher of the poems strongly objected to the inclusion of this particular effusion in the volume, but that Mr. Watson insisted that it be retained.

The remarkable society known as "The Souls" attracted much attention in England several years ago, although public knowledge of its affairs was always somewhat indefinite. Neither wealth nor position could secure an entrance to this most exclusive of clubs. Intellectual brilliancy was the test, and among the leading members were Arthur J. Balcanquhall, Mrs. Bertha Russell, Lady Granville, Lord Esher, Margot Tennant (now Mrs. Asquith, wife of the premier), George Wyndham and Alfred Tennyson.

The "Souls" met often and discussed everything imaginable and unimaginable. At last they got so far on the road to idealism, it was reported, that they took to finding affinities, and here came the stimulating shock. Affinities got to finding would begin to attack itself to the

idealistic tendencies of the society, and finally a really painful denunciation to the efforts-seeking of one particular couple caused society to loosen so severely upon "The Souls" that they disbanded.

The poem is as follows:

She is not old, she is not young,
The woman with the serpent's tongue,
The jagged cheek, the hanging lip,
The pointed words that wildly fly.

The fawnish face, the fawn hand,
Who slights the courtier in the land,
Sheets at the just, condemn the
And blackens goodness in its grave.

In truthful numbers be she sung,
The woman with the serpent's tongue,
Concealing whom false hints of
Told but in shrews and whisperings.

Ambitions from her natal hour,
And scheming all her life for power,
With little left of sunny pride,
With venomous fangs she cannot hide.

Who makes love to you today,
Tomorrow gives her guest away,
Burnt up within by that strange soul
She cannot slake, or yet control.

Malignant-lips, unkind, unweave,
And all example, indelible,
Hearts and always overstrung—
The woman with the serpent's tongue.

To think that such as she can mar
Names that among the noblest are,
That hands like hers can teach the
That make who knows what men and

That on her will their fates have
The woman with the serpent's tongue.

ROBBERS SECURED \$14,165

Daring Robbery of Canadian Express Agent at Niagara Falls.

Niagara Falls, Nov. 4.—A most daring holdup occurred in broad daylight at five o'clock this afternoon in the little brick office of the Canadian Express company, situated a few feet west of the Grand Trunk station. Two strangers came to the door, one going into the office and the other remaining guard in the doorway.

The former asked William Delson, cashier, if there was a trunk for him. Delson did not understand and asked the name "leoposted." The stranger did not articulate clearly and Delson bent behind the desk to see a record book to assist him.

When the stranger drew an 18-inch steel pipe padded with insulation tape and loaded at the end, and the head, Delson fell senseless with a big gasp in his scalp. The stranger leaped the counter and gathered a package containing \$14,165 in old bank notes which were on the way to the bank.

He destroyed and walked out. The pair fled down the track, seeing melancholy, so as not to attract attention.

The crime was committed within halting distance of hundreds of people. Men were busy loading baggage outside the office. A couple of minutes later the train messenger was to take the train passenger and talked like foreigners.

The man was short and stout, about 30 years of age, dark complexion, mustache, and wore a black overcoat. He could give an accurate description of the other man.

Inspector of Provincial Police W. H. Maines, with four detectives, in on the trail. A description of the men has been wired to all the nearby cities on both sides of the border. They were arrested, only one being held. He is not believed to be the right man. Delson will recover.

To Fix Easter Sunday.

Berlin, Nov. 5.—The general synod of the state church has approved, in principle, the suggestion to fix by legislation an immovable date to be observed as Easter Sunday. This is proposed as a convenience to both the clergy and the public. Dr. Drayner, vice-president of the synod, said that the council had the matter under advisement.

Has Great Fear of Gallows.

Kington, Ont. Nov. 3.—"I do not care if I stay in here for fifty years as long as they do not send me to the gallows," remarked James Robinson, of Warram, sentenced to twenty-eight years as he was taken into the prison today. He will work on the stone pile. While in jail at Sudbury he signed the petition asking for clemency in his wife's case.

CANADIAN GIVEN A MEDAL FOR HEROISM

Bertha Rattenbury, of Charlottetown, P.E.I., Rewarded With the Carnegie Hero Fund Commendation—Bravery of Fifty Persons Suitably Acknowledged.

Pittsburg, Nov. 5.—With the regular fall meeting of the Carnegie Hero Fund yesterday came the awarding of fifty persons throughout this country and Canada for acts of bravery and disinterested conduct called to the attention of the commission during the past three months.

With the exception of one award, made to a citizen of Canada, the entire list of persons, commemorated by the Carnegie Commission, are residents of the United States, twenty-eight persons living in Ohio. Approximately \$25,000 in cash twenty-three silver and twenty-seven bronze medals, were awarded by the action of yesterday's meeting of the commission.

Of the fifty heroic acts approved, fourteen of the persons responsible for them met their death. In these cases the next of kin received the reward.

Deaths of heroism during the flood at Athens, Ohio, on March 14, 1907, received the greater part of the attention of the commission. The acts of courage brought to the attention of the commission included saving children from fast running passenger trains, rescues from raging flooded rivers, stopping unmanageable runaway horses and carrying persons from burning buildings.

Protruding among the awards, and probably the most spectacular act of bravery called to the attention of the commission was the case of Halley M. Woods, a merchant of Athens, Ohio, and an expert swimmer. During the floods of the Hocking river in March, 1907, unassisted, rescued two men and a woman from almost certain death when he rowed a disbottomed skiff through a wild running current into the second story window of a half submerged house, carrying his rescued fellow citizens to safety.

In investigating the case of Mr. Woods the commission found that he was in debt in excess of \$1,000 for his small merchandise store and presented him with a check for \$1,000 and a silver medal.

Another instance called to the attention of the commission was that of William F. Sayre, of North Attleboro, Mass., a fifteen-year-old boy, who, unassisted and heavily dressed, jumped into a hole in the ice broken by the weight of a boy and girl, who had been skating on the thin coating and buoyed the couple up until assistance came. Young Sayre refused aid himself until the couple had been taken from the ice hole and were on their way to safety.

A particularly worthy award was the case of George E. McCue, colored, of Garden City, Kas., whose heroic act in rescuing a babe from its front of a

fast travelling passenger train, was brought to the attention of the commission by city officials of the town where the colored babe lived. McCue was given a bronze medal for his act and \$500 for educational purposes.

In Philadelphia, the commission found William H. Edwards, a longshoreman, 25 years old, who forged rare preparation in his anxiety to be of service to his fellow men. While the Atreida, a freight steamer, plying between Hamburg and Philadelphia was being unloaded during June 1908, an explosion in the cargo hold, caused by the carelessness of a worker, injured eleven men, and the ship was burned. Many deserted the ship, and Edwards came from the hatch.

Edwards volunteered to attempt the rescue of the imprisoned men. Tying a rope to a lighter, Edwards slid into the burning hold, but could find nothing. Hearing cries, he descended his rope, and after a long search located Lucius Hubbard, colored. Bearing his unconscious and injured fellow workman to the open hatch, he had him hoisted to the deck, and safely followed himself, when assured there was not other persons in the burning vessel. A silver medal was given Edwards, and the sum of \$1,000 to be applied to the purpose of a home or such other worthy purpose as may be approved by the commission.

In each of the fifty awards a hum-an interest story of real heroism is told.

The Canadian award was to Bertha Rattenbury, Charlottetown, P.E.I.

LORD NORTHLIFFE TALKS.

His Lordship Says Things About the Intercolonial.

Montreal, Nov. 4.—Lord Northcliffe arrived in Montreal today and accentuated his previous criticism of the Intercolonial railway. Asked if he had been incorrectly reported from Halifax, he replied that he had not and that he considered the Intercolonial a bad railway, although he had never in his life seen as many men working on a road. He declared he had never found trains on the Intercolonial on time, and his train was ten hours late reaching Montreal, although the Canadian Pacific could run trains from Montreal to reach Vancouver in one minute. The road, he said, was all right, but the system was bad, and he would like to see the road in the hands of one of the big Canadian railway companies. Asked if he was disappointed at government ownership of railways, Lord Northcliffe said this was his only experience of it, and he did not want another.
